

Blue Dykes Surgery Achieve Bronze Dignity Award Challenge

Blue Dykes Surgery is the first GP practice in the Hardwick CCG to achieve the Bronze Dignity Award challenge. We have seen a number of changes in recent years but one of the things that has remained constant is the caring attitude of our staff.

Launched nationally by the Department of Health the Dignity in Care Campaign aims to put dignity and respect at the heart of services that care for people.

The campaign is about winning hearts and minds, changing the climate of care services and placing greater emphasis on improving the quality of care and experiences of citizens using the service. It includes action to:

- Raise awareness of dignity in the care of others
- Inspire local people to take action
- Share good practice and give impetus to positive innovation
- Transform services by supporting people and organisations in providing dignified services
- Reward and recognise those people who make a difference and go the extra mile.

Dignity is the foundation for all health, social care and other public services and is the responsibility of everyone involved at all levels. We are proud to have been recognised in our deliverance of this standard of care.
